## Intellect Privacy & Data Breach Liability Endorsement

**Please take a moment to review important information provided by Paul Hancock, insurance broker with McFarlan-Rowlands, regarding the Intellect Privacy & Data Breach Liability Endorsement.**

A privacy breach is a security incident in which sensitive, protected or confidential data is intentionally or unintentionally released to an untrusted environment. Lost data may involve personal information such as Social Insurance numbers, financial information such as credit card or bank details and, likely most relevant to Registered Psychotherapists, personal health information.

While the Privacy Breach Liability recently added to the CAPT Liability Insurance Program pays out damages if you are sued as a result of a privacy breach, it does not provide coverage to rectify the software problem or notify breach victims. The optional Intellect Privacy & Data Breach Liability Endorsement is an additional \$75 for a \$250,000 limit. It provides both proactive and post-breach solutions with expanded Privacy & Data Breach Liability as well as Data Breach Services

### **Privacy & Data Breach Liability**

The Privacy & Data Breach Liability portion is comprised of the following coverages:

- \$250,000 Privacy Breach Liability - provides coverage for a lawsuit resulting from a digital privacy breach

[Subscribe](#)[Past Issues](#)[Translat](#)

- \$25,000 Privacy Breach Expense - provides coverage to notify breach victims
- \$25,000 Business Interruption Loss - provides coverage for wages lost due to a security failure resulting in a network outage
- \$25,000 Digital Asset Loss - provides coverage to rectify the software problem

### Data Breach Services

Intellect Privacy & Data Breach Liability Endorsement also provides members with access to a Breach Service Team. The team is comprised of individuals with backgrounds in Data Security, Computer Forensics, Privacy Law, Information Technology and Business Administration.

The Breach Service Team will:

- Assist with crisis management, answering questions, and listening to any concerns the member might have
- Provide necessary documentation
- Assist in drafting breach notices
- Provide industry best practices regarding the handling of a breach

You will have the option to add the Intellect Privacy & Data Breach Liability Endorsement in your upcoming insurance renewal with McFarlan Rowlands.
